

Rear vision: the new HYMER dual-lens reversing camera 2.0

Bad Waldsee, 24 August 2018 – The new dual-lens reversing camera 2.0 from HYMER Original Parts & Accessories combines sophisticated camera technology and the third brake light in one housing, and also features a new design and improved functionality. Thanks to the high-resolution sensors, the two cameras don't miss a thing, whether in the distance or right behind the vehicle – a clear bonus when it comes to safety.

With the dual-lens reversing camera 2.0, HYMER Original Parts & Accessories is introducing an accessory for HYMER motorhomes that not only boasts a new design featuring a discreet and sophisticated white glass appearance, but improved functionality as well. The two reversing and rear-view camera modules are directly integrated in the third brake light. This means that they can be installed quickly and easily without any holes for the cable bushing or screw fixings in the rear wall. The high-resolution premium sensor provides perfect visibility, both day and night – both in the distance with the reversing camera and right behind the vehicle with the rear-view camera. Both cameras create a field of vision with a viewing angle of 170 degrees. The cameras can also be used continuously, e.g. to keep track of the traffic behind the motorhome (rear-view mirror function), and thanks to the super night vision camera technology, there's no need for any additional infrared or LED headlights.

As a result, the twin technology helps to improve your safety in traffic – something that's incredibly important to HYMER and is also reflected in the vehicles, for example, which are equipped with comprehensive assistance systems. The camera is not only impressive in terms of safety, but also in terms of water tightness thanks to the high-quality workmanship: the lenses are coated with a special nano sealant to protect against misting and to enable rainwater to drain off easily, which is also really handy when washing the vehicle. The corrosion, UV and salt water-resistant material can also cope with whatever weather you encounter on your trip.

The dual-lens reversing camera 2.0 from HYMER Original Parts & Accessories will be available from dealers from September 2018 and can be fitted to the majority of HYMER's current motorhomes.

About HYMER

Since its foundation in 1957, HYMER has been a household name in motorhomes and caravans “made in Germany”. The company is not only notable for its long tradition and passion for motorhoming, but is also one of the leading manufacturers in the premium sector thanks to its high standards of quality and consistent record of innovation. Hymer GmbH & Co. KG markets its products under the four brands HYMER Motorhomes, ERIBA Caravans, HYMERCAR Camper Vans and HYMER Original Parts & Accessories. Hymer GmbH & Co. KG is part of the Erwin Hymer Group.

About the Erwin Hymer Group

The Erwin Hymer Group unites motorhome and caravan manufacturers, motorhome and caravan accessory specialists as well as hire and financing services under one roof. In financial year 2017/18, the Group achieved a turnover of 2.5 billion euros with more than 7,300 employees world-wide and around 62,000 recreational vehicles.

The motorhome and caravan brands American Fastbacks, Buccaneer, Bürstner, Carado, Cliffride, Compass, Dethleffs, Elddis, Eriba, Etrusco, Hymer, Niesmann+Bischoff, Laika, LMC, Roadtrek, Sunlight and Xplore, the motorhome hire companies Best Time RV, McRent and rent easy, the chassis specialist Goldschmitt, the accessories specialist Movera, the trailer tent manufacturer 3DOG camping and the touring portal freeontour all belong to the Erwin Hymer Group.
